Welcome to MB Lights, a renowned Australian manufacturer of innovative, high-quality lighting solutions. With over 40 years of experience in the industry, we've established a reputation for delivering exceptional products and services that exceed our clients' expectations.

At MB Lights, we pride ourselves on our unwavering commitment to excellence, sustainability, and customer satisfaction. Our team of experienced lighting professionals is dedicated to providing personalized support and guidance throughout every project, from concept to completion.

One of our key strengths is our ability to respond quickly and efficiently to our clients' needs. We understand the importance of meeting deadlines and staying on schedule, which is why we offer a rapid response and turnaround on all our projects.

Our manufacturing facility is equipped with modern- technology and machinery, enabling us to produce bespoke lighting solutions that meet the unique requirements of each project. Whether it's a commercial, industrial, or residential project, we have the expertise and capabilities to deliver high-quality lighting solutions that enhance ambiance, productivity, and safety.

With a passion for innovation and a commitment to excellence, MB Lights is the trusted partner of choice for architects, designers, electricians, builders, and lighting professionals seeking reliable, energy-efficient, and visually stunning lighting solutions.

- 1. Custom Lighting Design:** Our experienced lighting designer works with clients to create bespoke lighting solutions that meet their unique needs and requirements.
- 2. Manufacturing:** We design, develop, and manufacture high-quality lighting products at our production facilities.
- 3. Lighting Consultancy:** Our expert lighting consultant provide guidance on lighting layouts, lux levels, and energy efficiency to ensure optimal lighting solutions.
- 4. Project Management:** We offer comprehensive project management services, from concept to completion, to ensure seamless execution and timely delivery.
- 5. Testing and Certification:** Our products undergo rigorous testing and certification to ensure compliance with Australian and international standards.
- 6. Warranty and Support:** We provide comprehensive warranty and support services, including repair, replacement, and maintenance, to ensure our products continue to perform optimally.
- 7. Sustainability and Energy Efficiency:** Our team can provide guidance on energy-efficient lighting solutions and sustainable practices to reduce environmental impact.
- 8. Compliance and Regulatory Services:** We ensure that our products comply with relevant Australian and international standards, regulations, and codes.
- 9. Product Customization:** We offer customization services to tailor our products to meet specific client requirements.
- 10. Training and Education:** Our team provides training and education on lighting design, product selection, and installation to ensure clients get the most out of our products.

## **Project Overview:** FS8 Gym Lighting Solution

**Location:** Mildura, Victoria

### **Project Description:**

FS8 Gym is a state-of-the-art fitness facility located in Mildura, Victoria. As part of their commitment to providing a premium workout experience, the gym's owners engaged MB Lights to design and supply a comprehensive lighting solution.

### **Project Objectives:**

- Create a high-energy and motivating atmosphere for gym users
- Provide optimal lighting for various fitness activities and training areas
- Improve safety and visibility throughout the facility
- Enhance the overall aesthetic appeal of the gym

### **Lighting Design and Solution:**

The lighting design for FS8 Gym incorporated a range of MB Lights' energy-efficient LED luminaires, including:

- LED panel lights to provide intense, focused lighting for high-impact training areas
- Track lights to create a dynamic, high-energy atmosphere in the main entrance area
- Strip lights to provide targeted lighting for specific training equipment and amenitie areas

### **Key Features and Benefits:**

- Energy-efficient LED lighting solutions, reducing energy consumption and greenhouse gas emissions
- Improved safety and visibility throughout the facility
- Enhanced ambiance and aesthetic appeal, creating a motivating and high-energy workout environment
- Optimal lighting for various fitness activities and training areas, improving user experience and performance

### **Project Outcome:**

The FS8 Gym lighting project was successfully completed, meeting the client's objectives and expectations. The new lighting design has significantly improved the overall ambiance, safety, and functionality of the gym, providing a premium workout experience for members.

**Project Overview:** Geelong Waterfront Bob McGovan Path Lighting Upgrade

**Location:** Geelong Waterfront, Victoria

**Project Description:**

The Geelong Waterfront Bob McGovan Path is a scenic pedestrian and cycling path that runs along the picturesque Geelong waterfront. As part of a major revitalization project, MB Lights was engaged to design and supply a comprehensive lighting solution for the path.

**Project Objectives:**

- Enhance safety and security for path users at night
- Showcase the waterfront's natural beauty and scenic views
- Create an inviting and welcoming ambiance for visitors
- Meet the City of Greater Geelong's sustainability and energy efficiency goals

**Lighting Design and Solution:**

The lighting design for the Geelong Waterfront Bob McGovan Path incorporated a range of MB Lights' energy-efficient LED luminaires, including:

- Path lights to illuminate the walking and cycling path

**Key Features and Benefits:**

- Energy-efficient LED lighting solutions, reducing energy consumption and greenhouse gas emissions
- Improved safety and security for path users at night
- Enhanced ambiance and aesthetic appeal, showcasing the waterfront's natural beauty
- Compliance with the City of Greater Geelong's sustainability and energy efficiency goals

**Project Outcome:**

The Geelong Waterfront Bob McGovan Path lighting project was successfully completed, meeting the client's objectives and expectations. The new lighting design has significantly improved safety, ambiance, and aesthetic appeal, while also reducing energy consumption and environmental impact.

### **Project Overview:** Maribyrnong Civic Centre Lighting Upgrade

**Location:** Footscray

**Value:** \$50 Million

The Maribyrnong Civic Centre is a vibrant community hub located in the heart of Maribyrnong, Victoria. As part of a major refurbishment project, MB Lights was engaged to design and supply a comprehensive lighting solution for the centre.

### **Project Objectives:**

- Provide high-quality, energy-efficient lighting that enhances the overall aesthetic and functionality of the centre
- Achieve Green Star certification, demonstrating a commitment to sustainability and environmental responsibility
- Ensure the lighting design meets the needs of various users, including council staff, community groups, and visitors

### **Lighting Design and Solution:**

The lighting design for the Maribyrnong Civic Centre incorporated a range of MB Lights' products, including:

- Energy-efficient LED luminaires for general lighting, task lighting, and accent lighting
- Smart lighting controls and sensors to optimize energy efficiency and user experience
- Custom-designed lighting features to enhance the centre's architectural design and aesthetic

### **Key Features and Benefits:**

- Energy-efficient lighting solutions, reducing energy consumption and greenhouse gas emissions
- Improved lighting quality and consistency, enhancing user experience and safety
- Flexible and adaptable lighting design, accommodating various uses and activities
- Achieved Green Star certification, demonstrating commitment to sustainability and environmental responsibility

### **Project Outcome:**

The Maribyrnong Civic Centre lighting project was successfully completed, meeting the client's objectives and expectations. The new lighting design has significantly improved the overall aesthetic and functionality of the centre, while also reducing energy consumption and environmental impact.

## **Project Overview:** Mooris Moor Residential Development

**Location:** Moorabbin, Victoria

## **Project Description:**

Mooris Moor is a prestigious office development located in the heart of Moorabbin. This exciting project, carried out by Kare Group and Kapital Group, features 17,000 sqm of luxurious offices that showcase the best of modern workplace.

## **Lighting Solution:**

MB Lights was engaged to design and supply a comprehensive lighting solution for the Mooris Moor development. Our team worked closely with the project partners to create a tailored lighting plan that met the unique needs of each space.

The lighting design incorporated a range of MB Lights' energy-efficient LED luminaires, including:

- External lighting to enhance the development's curb appeal and provide safe and secure outdoor spaces
- Internal lighting to create warm and inviting living areas
- Task lighting to provide focused lighting for specific areas, such as boardroom and work stations.

## **Key Features and Benefits:**

- Energy-efficient LED lighting solutions, reducing energy consumption and greenhouse gas emissions
- Improved safety and security through effective outdoor lighting
- Enhanced ambiance and aesthetic appeal, showcasing the development's luxurious features
- Tailored lighting design to meet the unique needs of staff.

## **Project Outcome:**

The Mooris Moor office development is a testament to the success of collaborative project partnerships. MB Lights is proud to have played a part in bringing this exciting project to life, and we look forward to the opportunity to work with Kare Group and Kapital Group again in the future.

UPSTATE OF  
STRONG BODIES + HAPPY

**Project Overview:** Upstate Studios Multi-Site Development

**Location:** Ocean Grove, Torquay, Ascot Vale, and Ballarat, Victoria

**Project Description:**

Our team collaborated with Upstate Studios to design and supply comprehensive electrical solutions for their four developments across Victoria. Although each site was completed at a different time, we successfully maintained consistency in both the aesthetic appearance and performance of the electrical installations across all locations. Our attention to detail ensured a uniform outcome, despite the staggered completion schedule.

**Our scope of work encompassed:**

- Electrical design and documentation for each site
- Supply of electrical materials and equipment
- Coordination with contractors and stakeholders
- Quality assurance and control

**Key Highlights:**

- Successfully delivered tailored electrical solutions for four separate developments
- Demonstrated expertise in multi-site project management
- Ensured compliance with relevant electrical standards and regulations
- Collaborated with contractors to achieve efficient project delivery

**Outcomes:**

- Delivered high-quality electrical solutions, meeting client expectations
- Achieved project timelines and budget requirements
- Strengthened our partnership with Upstate Studios through successful project delivery

This project showcases our expertise in delivering comprehensive electrical solutions for multi-site developments, highlighting our capabilities in project management, design, and supply.

# Client Testimonials

CES used MB Lights for a recent project at Highpoint Shopping Centre. The team at MB were incredible throughout the entire project, from reviewing our drawings and scope in order to provide recommendations and quotes, to making themselves available as changes were required down the track. With large projects like this, there is always a lot to manage, from multiple stakeholders and products, to changing schedules and budgets.

Having a team like MB Lights supporting us and take the pressure off when needed was a big load off of our shoulders.

Thank you MB Lights for making the lighting sourcing portion of our project a breeze.

“Talk of  
the Town”

I'm delighted to endorse MB Lights as a trusted and valued partner for San Remo Electrical. Their exceptional lighting solutions have been instrumental in delivering outstanding results for our clients across various domestic and commercial projects.

MB Lights expertise and product quality have consistently impressed us, particularly in our commercial projects at Upstate Gyms and Torrens University. However, it was our collaboration on the Synechron office fitout at Melbourne Quarter, Docklands, that truly showcased their capabilities.

MB Lights took ownership of the lighting design and supply, working closely with our team to deliver a tailored solution that exceeded our client's expectations. The final result was stunning, with the lighting perfectly complementing the modern aesthetic of the space.

Their dedication, expertise, and commitment to excellence make MB Lights an invaluable partner for any electrical business. We look forward to continuing our collaboration and delivering exceptional results for our clients.

Highly recommended!

“Did you  
know?”

MB Lights have been a valued partner for Insight Electrical on numerous projects. Their commitment to delivering high-quality, energy-efficient lighting solutions has been impressive.

Their team's expertise, responsiveness, and willingness to collaborate have made them a pleasure to work with. From design to delivery, MB Lights have consistently met our expectations and contributed to the success of our projects.

We particularly appreciate their ability to tailor their products to meet the unique needs of each project, and their dedication to providing exceptional customer service.

We look forward to continuing our partnership with MB Lights and exploring opportunities to work together on future projects.

# Client Testimonials

M Squared Electrical has had the pleasure of working with MB Lights over the years, Not only do they deliver our projects on time, but their customer care is also fantastic. Every question our team has is always answered promptly, Data sheets/IES and testing sheets are always on hand for easy sign off with Consultants and Clients. The quality of their products are outstanding, and you can tell they prioritize both excellence and customer satisfaction. If you're looking for a company that delivers top-notch lighting solutions while providing exceptional service.

MB Lights is the way to go!

### **M Squared Electrical**

Matt Fordham  
Project Manager

Working with MB Lights has been a great experience. For our project, MB Lights provided an alternative lighting package that maintained quality and compliance while delivering significant cost savings. Their technical expertise and ability to communicate effectively with all stakeholders played a key role in securing approval for the package. We highly recommend MB Lights for their industry knowledge and customer focused approach

### **QA Electrical**

Josh Quinlan  
Project Manager

I recently had the pleasure of working with MB Lights, and I couldn't be more pleased with the service and products they provided. Emma, who was my main contact, was incredibly professional and helpful throughout the entire process. She took the time to understand my needs and offered excellent lighting solutions that were both stylish and functional.

The selection of lighting fixtures was impressive, and I could easily find options that perfectly matched the clients vision for the space. The quality of the products and the ease of the purchase process made everything so seamless.

I highly recommend MB Lights for anyone in need of high-quality lighting and outstanding customer service. Emma and the team really go above and beyond to ensure you get exactly what you're looking for!

Harry Karefilakis  
Director

## “Fun Facts”

We have utilised MB Lights on several projects and have consistently been impressed with the quality of their products. However, what stands out the most is the excellent communication and the friendly disposition of the team, who are always ready to assist us whenever we have urgent requests. We wholeheartedly recommend MB Lights.

### **One Step Ahead**

Craig Niles  
Director

We recently worked with MB Lights for our lighting needs, and we couldn't be more impressed with their service and products. From start to finish, the team was professional, knowledgeable, and incredibly responsive. They took the time to understand our specific requirements and provided tailored recommendations that truly made a difference. The quality of their lighting solutions is outstanding.

We would highly recommend them to anyone looking for top-notch lighting solutions.

Project Manager

## Quality Control

At MB Lights, we take pride in delivering high-quality lighting solutions that meet the highest standards of performance, safety, and reliability. Our commitment to quality is reflected in our rigorous quality control processes, which ensure that every product that leaves our facility meets our exacting standards.

## Testing and Inspection

We conduct thorough testing and inspection of all our lighting products, including custom-cut strip lighting, to ensure that they meet our quality and performance standards. Our testing procedures include:

- Visual inspection for defects and damage
- Electrical testing to ensure compliance with relevant safety standards
- Performance testing to verify that our products meet their specified lumen output, color temperature, and other performance characteristics

## Custom-Cut Strip Lighting Testing

We understand that custom-cut strip lighting requires special attention to ensure that it meets the specific requirements of each project. That's why we test every custom-cut strip lighting product prior to dispatch from our production team. Our testing procedures for custom-cut strip lighting include:

- Verification of correct cutting and trimming to ensure accurate fitment
- Electrical testing to ensure that the custom-cut strip lighting product meets relevant safety standards
- Visual inspection to ensure that the product is free from defects and damage

## Certifications and Compliance

We are committed to compliance with relevant industry standards and regulations, including:

- Australian Standards (AS) for lighting and electrical safety
- International Electrotechnical Commission (IEC) standards for lighting performance and safety
- Energy Efficiency requirements for lighting products

## Continuous Improvement

At MB Lights, we are committed to continuous improvement in our quality control processes. We regularly review and update our testing procedures to ensure that they remain relevant and effective in ensuring the quality and performance of our lighting products.
